Minerals, minerals, minerals... always minerals, and paradise in Europe is the Munich Show!

This year our stand A6.428 will be even more spectacular than in previous years since on each side we will have two high quality showcases of minerals with LED lighting of latest generation. Obviously the important thing about minerals is not their presentation but their quality, but we believe that we will have both well balanced! 😊

Do not forget to visit us in Munich, our offering this year will be huge, very varied and will comprise everything from beginner specimens of 5 € to top pieces of 20K (or even more)

See you in Munich in our booth A6.428 or in our numerous editions on line: <http://www.fabreminerals.com/webupdate/indexen.php>
