

## EXPOMINER 2020 (VIRTUAL)

12 - 15 November 2020

Barcelona, 11/9/2020

Opal (variety lussatite) - Les Rois Mine, FRANCE 1.3 x 1.1 cm

Strange times in which all Mineral Shows are canceled, including, unfortunately, Expominer, the reference show in Spain for international mineralogy. The Expominer Show can not escape this reality and this year has to limit itself to offering video conferences:

For better or worse this is what it is and in this situation what we are doing on our part is continue offering Virtual Shows: [Ste. Marie Virtual](#), [Munich Virtual](#) and now also Expominer Virtual.

Twinned Cerussite - Touissit, MOROCCO 6.4 x 3 cm

Do not miss its 'opening' on Thursday, November 12 at 4:00 p.m. at [fabreminerals.com](http://fabreminerals.com) nor the continuous offer of minerals that we will be publishing there every day until Sunday, November 15.

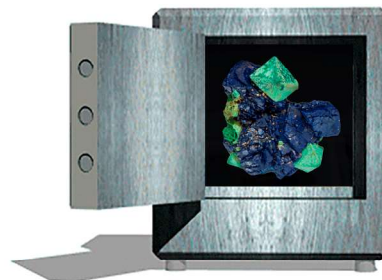

There will be no Expominer, but at least there will be a Virtual Expominer!
