

FABRE MINERALS

MINERALIENTAGE MÜNCHEN

October 25 - 27, 2019

Stand number A6.428

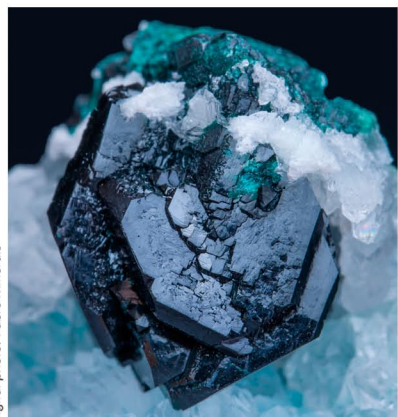

Proustite - Ait Ahmane, MOROCCO Crystal: 1.5 x 0.4 cm

Smithsonite - Kelly Mine, New Mexico, USA 8.7 x 4.7 cm

Azurite on Dickite - Milpillas, MEXICO Crystal: 2.1 x 2.1 cm

Clinochacamite with Quartz - Lily Mine, PERU 3.2 x 2.3 cm

Barcelona, 10/10/2019

Time passes and the years too. I am no longer young and I need a little less intensity when I exhibit at Shows, so this year in Munich we will be in the same place, we will have a lot of space, very good pieces and our usual mix of top specimens and more modest specimens, but unlike previous years we will expose them all in closed showcases (very well-lit 😊)

Do not hesitate to ask us about the pieces you might like even if they are inside the showcases. I myself, Jordi Deusedes or Julia will gladly show them to you even if you are just curious to see them. We understand that with this change our customers used to having the pieces in their hands will want to continue doing so and we will do our best to keep it that way, making it easier for them to see "in person".

Times change and so do we, but we will continue with our effort to make things the best we can!

Mineralogically yours

Jordi Fabre

Vanadinite - Mohamedine, Coud'a, Mibladen, MOROCCO

12 x 8.6 cm
