

# FABRE MINERALS

**Hotel TCC - Inn Suites, room 164**

**This year we open from Monday,  
February 3 until Saturday,  
February 15 (inclusive)**

Barcelona 01/14/2014

Tucson time, so here you have our regular announcement of our schedule for Tucson 2014.

First of all, we want to let you know that although our past year's experience at Westward Look was positive, we have decided to display in just one spot again, our regular spot, room #164 in Hotel **TCC-Inn Suites**, because we believe it is easier for our customers to meet us in the same place, our regular room, during the whole show.

Add to this another change. This year we will have one more exhibiting day than in recent years. We will open Monday, February 3rd, and will remain open to Saturday, February 15th. Several customers told us that Monday is a good day for them because they still remain in Tucson before returning to their jobs, so we heard these claims and we got it ;-)

How about minerals? New Finds, Classics, Collections, China, Fluorites from Spain, and as a "tour de force" many unusual samples from Panasqueira from our old stocks that we prepared especially for this Tucson edition.

Of course, as we do every year, we will also try to include some unexpected offers, please allow us the pleasure of surprising you! ;-)

See you in Tucson or on line through our regular chronicles that as usual will be published at [www.mineral-forum.com](http://www.mineral-forum.com)

Genthelvite - Huanggang Mine, CHINA Crystals: 1.3 x 1.2 cm.

Fluorite - Llamas Quarry, SPAIN Main crystal: 1.3 x 1.1 cm.

Azurite - Chessy-les-Mines, FRANCE 11 x 7.5 cm.

Dyscrasite - St. Andreasberg, GERMANY 1.8 x 0.9 cm.

Fluorapatite - Panasqueira, PORTUGAL 9,2 x 6,2 cm.
